

# Leaded Glass Overlays

*Our leaded glass is handmade using clear textured glass, beveled accents, and your choice of dark patina, zinc, or brass caming. The finished panel is applied over your existing insulated glass window, adding beauty without compromising energy efficiency. Our windows are available in a variety of standard sizes, and can be customized to fit your specific size or shape. Our leaded glass can be applied to wood or vinyl windows, completing any master bath.*
